Competition Types

These notes are intended to assist in the general concept of how various competitions are played. They must be read in conjunction with the Rules of Golf and conditions laid out by the Committee under which a competition is to be played (Rule 21)

MEMBERS ARE REQUIRED TO ENSURE THAT THEY ARE AWARE OF THE RULES OF THE COMPETITION PRIOR TO COMMENCING PLAY

STROKE (MEDAL) EVENTS

The score of each hole is recorded on the score card, totalled and the player's full handicap deducted. The player who completes the stipulated round(s) in the fewest strokes is the winner. In the event of medal being cancelled, it will be played the next Saturday, excluding major events. The Guzzlers mug is retained for 1 (one) month only, from the winning date.

PAR EVENTS

The score is recorded on the card in the same way as in stroke play.
After entering the stroke score, the par result is placed in the column provided (note that you are not required to record your stroke if the result is worse than par after the handicap for that hole has been deducted)

The results are recorded as:		
'+' for a win (better than par)	'0' for a half (even to par)	'-' for a loss (worse than par)

On completion of the round, the plus and minus signs are added and the nett result is written in so many "up", "down" or "equal".

A player is allowed his full handicap and the strokes are taken at holes as indicated on the card. If the player's handicap is more than 18, two strokes will be allowed on the number of holes that the handicap exceeds 18. These strokes will be taken in the same order as followed for the first 18 holes unless the index goes beyond 18.

It is the custom that when a player is beaten by Par, the ball shall be picked up. This helps speed up play.

STABLEFORD EVENTS

This system of scoring was introduced by Dr. Stableford of the Liverpool Golf Club in 1931. The method of playing Stableford competition is for the player to take strokes at holes as in Par competition using full handicap and to score points on the nett results at each hole. At the end of the round all points are added up and the player having the highest number of points is the winner.

After allowing for handicap, a player who scores:	
2 Under Par	4 Points
1 Under Par	3 Points
Par	2 Points
1 Over Par	1 Point
2 Over Par	No Points ('-' or wipe)

For example, a player who receives a stroke on a par 4 hole, scores 4 giving him a nett 3 and therefore gets 3 Stableford points.
A player who on a par 3 hole, scores 4 but does not receive a stroke will only get 1 Stableford point.

FOUR BALL BEST BALL (2BBB) V PAR
Two players play as partners, each taking strokes at holes as in Par competition.
If one of the players wins a hole and the other halves the hole, only the win is counted.
If one halves the hole and the other loses it, only the half is counted, and so on.
The results are recorded as in ordinary PAR competition. Note that care must be taken to mark the results of each player on separate columns headed by the initials of each player.
If the committee cannot verify the results for each player then the players will be disqualified.

FOUR BALL BEST BALL (2BBB STABLEFORD)
This event is played in exactly the same manner as 4BBB PAR, except that the better ball of the partnership is recorded with points instead of plus, half or minus.

FOURSOMES
Two players play as partners and use only one ball. The partners hit off alternatively from the tee and therefore strike the ball alternatively during the play at each hole.
The gross scores are recorded and the total is subject to a deduction of half the partner's aggregate handicaps.

Note if one player incurs a penalty stroke, this does not alter the rotation of play. In Foursome stroke competition held over several rounds, the order of play must be changed between rounds unless the Committee has laid down a condition of play, that the original order of play must be preserved or changed through the competition.
(Decision 33-1/3.5).
Foursomes can be played under either stroke play rules or Matchplay conditions and Rule 29 is relevant to Foursomes.

MIXED FOURSOMES
Mixed foursomes are played in the same manner as foursomes except that the ladies use their own tee. Full handicaps apply.

AMERICAN FOURSOMES
Both players tee off then cross over and play each other's ball of which the best ball is chosen and played alternatively until holed out. (3/8 of combined handicap)

TWO STROKE CANADIAN FOURSOMES
This game differs from American Foursomes in only one respect:
Both partners hit two shots before picking the best ball and alternating play rather than just a tee shot. (3/8 of combined handicap)

AMBROSE
Team stroke event played by a group of 2, 3, or 4 players. All players play tee shots at each hole. The Team Captain then selects the best ball which is played by its owner in any order. The other players must drop their ball within one club length of the selected position (except on greens where the balls are placed no more than one putter head length on either side but not nearer the hole) and play their second shots. This procedure continues until the holed out: order of play at group's discretion. Groups of 2 or 3 or 4 players.

NOTE: that if the selected shot is in the rough, then all other balls must be dropped in the rough. Tee Shots must be marked on the score card.

Ambrose Handicaps		
2 Players	1/4 of Combined Handicap	6 Tee Shots Each
3 Players	1/6 of Combined Handicap	3 Tee Shots Each
4 Players	1/8 of Combined Handicap	3 Tee Shots Each

IRISH STABLEFORD
Played as ordinary Stableford, with team of 4 players, the best 2 scores are recorded for each hole.

MIXED EVENTS (STABLEFORD, PAR)
These are team events where a male member(s) teams with a lady member(s).
The events are played in the same manner as ordinary events except that ladies play from their own tee. Maximum handicap for ladies is 45 and members 36.

MULTIPLIER EVENTS
Four Ball Multiplier is scored each hole multiplying player A's stableford score for the hole by player B's stableford score. For example player A scores 2 points and player B scores 3 points, then the four ball score is 6 points. If either player fails to score then the four ball score is nil.

MEDLEY
Medley events are those where either two men or two associates or a man and an associate may team together.

STARTER

When both the 1st and 10th tees are being used the Starter at his own discretion can and will move groups to the other tee to enable the field to get away in a timely manner. The Starter may also add players to groups when necessary.

COUNTBACK PROCEDURE

In multi-round events, the lowest score for the last 18 holes is the winner. In single round events, or ties over the last 18 holes in multi-round events, the best score for the last 9 holes wins. If still tied then the best score for the last 6 holes is counted and if again tied then the last 3 holes are counted. If still tied then the countback goes back hole by hole commencing with the 18 until winner is determined.

COMPETITION STARTS

All players must report to the Starter and pick up their cards at least 15 minutes prior to scheduled hit off time.
